DETAILED ACTION

Priority

1. This application filed under former 37 CFR 1.62 lacks the necessary reference to the prior application. A statement reading "This is a continuation in part of Application No. 09/492,395, filed 27 January 2000, now US Patent 6,170,828." should be entered following the title of the invention or as the first sentence of the specification. Also, the current status of the parent nonprovisional application(s) should be included.

Claim Objections

2. Claim 1 objected to because of the following informalities: Lines 1, 7, and 8 contain parenthesis around the word (BLACKJACK) and (not a soft 17). These claim limitations in parenthesis could be construed to be in the alternative. The examiner suggests that the parenthesis be changes to commas for example NO BUST 21, BLACKJACK, and that is "17", not a soft 17, or greater. Appropriate correction is required.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Art Unit: 3713

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-6 rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-4 of U.S. Patent No. 6,170,828. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the instant application carry the same inventive concept in differing terms that serve to state the same inventive concept in a different way.

Citation of Pertinent Prior Art

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following is a list of references which relate to a no bust 21 or BLACKJACK; Weldon '580, Palacios '769, Daines '565, Aramapakul et al '118, Flasch '536, Srichayaporn '360, Seymour '417, Boylan '877.
